

# EFFEKT Vertical absorbent

AKUSTIKMILJÖ // ENVIRONMENT-FRIENDLY SOUND ABSORBENTS WITH FOCUS ON FUNCTION & DESIGN

EFFEKT Vertical absorbent in office space.

With EFFEKT Vertical absorbent it is easy to improve the acoustic quality in a room without having to change existing installations such as ventilation, cables, lamps, etc. The absorbent is mounted piece by piece, and with an even distribution this turns into a solution worth its price, where sound dispersion lengthwise in the room is reduced.

## Advantage

- **Does not intrude:** EFFEKT vertical absorbent is mounted piece by piece and therefore does not intrude upon existing installations such as ventilation, lamps, alarms, etc.
- **Quality & Environment:** EFFEKT is made from EcoSUND® or from rock wool, dressed with polyester non-woven, a high-quality sound absorbent, class A.
- **Worth its price:** A solution worth its price as you do not have to contact other workmen in order to change and move already installed products.
- **Effective:** It effectively reduces the sound spreading thanks to its pendent installation.
- **Colour:** EFFEKT is white as standard, but is available in other colours upon request.

"What promotes creativity is a basic level of peace and space for new thoughts."
